The Yellow Passport

A Shubert Production with Distinguished Power and Dramatic Intensity

STORY OF THE YELLOW PASSPORT

From its first scenes depicting a massacre at Kiev, Russia, by the dread "Black Hundreds," the story of "The Yellow Passport" grips the spectator with tense fingers. Her family destroyed in the massacre and herself persecuted by the leader of the murderous band, Sonia Sokoloff, in desperation, obtains from the police a license such is issued to the Russian women of the night. With this license as her protection she endures the ignominy of living as a supposedly immoral woman, while in reality living a pure life. At last she succeeds in escaping the vigilance of her arch-persecutor and comes to America to pursue her operatic ambitions. Success, wealth and love come to her hand, but just as her fingers are about to close on her happiness the long arm of circumstance stretches forth to snatch it away. Her lover and his family discover the secret of "The Yellow Passport." In the end Sonia triumphs, but not until her soul has been racked with the torture of suspicion and false accusation.

Summoned in Consultation Over Outbreak of Acute Plangular Fever, Which Is Proving Fatal.

Dr. George B. Anderson was called to Bridgeport, Conn., yesterday because of an epidemic of acute plangular fever, there being some 200 cases in the city. This is an acute infectious disease which effects all glands of the body and is reported to have proved fatal in several instances in Bridgeport. Dr. Anderson received the call from the mayor of the city but said when taking the train that he did not know why he should have been called in consultation unless it had become known that he had been successful in the treatment of a few similar cases.

FAIR HAVEN STATION ROBBED.

About \$300 Worth of Property Stolen Saturday Night.

FAIR HAVEN, June 27.—Sometime Saturday night, probably between 11 and 12 o'clock, the ticket office of the Delaware and Hudson railroad here was entered, the safe opened and rifled. The burglar secured 26 50-mile mileage books, a small sum of money and some tickets. The safe was evidently opened by working the combination. It is believed that a recently discharged prisoner from a New York state prison made the break as a man, said to have been released from a New York prison, was in Fair Haven Saturday night and is said to have been in the Palace bowling alley and to have offered to sell a full D. and H. mileage for \$5.

EUROPEAN WAR NEWS

Today's despatches give little indication of the general course of events within the past few hours along the Franco-Belgian front, where the British artillery has been notably active for two or three days. The latest reports from Berlin and London lend color to the prevalent belief that the long-threatened concerted attack by the entente allies on the various fronts is in preparation, if not in actual progress.

At Verdun the situation has not materially changed over last night. Paris reports further progress for the French in regaining ground in the region of the Thimont woods. Rather spirited fighting also has been in progress in the region of Fleury, with no changes in positions as a result. Operations by the Teutonic submarines are being continued in the Mediterranean, where the British steamer Cardiff and the French steamer Fournel have been sunk by an undersea boat.

FIREWORKS MONEY FOR HOSPITAL FUND

Horton D. Walker Makes Suggestion as to Use of Money Raised for July 4 Celebration.

Editor of The Reformer:
May I make the suggestion that the money that has just been raised for a display of fireworks on July 4 be used as the nucleus of a hospital fund for boys in Company 1.

I know from experience that pay day in the regular army is the most irregular thing about it, and that a little ready money in responsible hands would be a blessing.

The board of trade has a committee on military affairs, of which Col. J. G. Estey is the chairman. I recommend that this money be turned over to him instead of being burned up in one hour.

Your very truly,
HORTON D. WALKER.

CONTRACT MADE FOR FIREWORKS DISPLAY

Money Raised and Turned Over to Island Park Company—Savings by Using Apparatus Again.

George W. Chapp, who started the movement to raise funds for a \$200 display of fireworks at Island park July 4, states that the money has been raised and turned over to the Island Park company and that the contract for the display has been made. Some of the apparatus which was used last year will be used again, which will give a larger display than otherwise would be the case. The company which has the contract is the same one which will furnish the display at Revere beach and the amusement parks in Worcester and Springfield.

RUTLAND FARMER FATALLY INJURED

W. Henry Lester's Skull Fractured When Auto Struck Iron Bridge at Middlebury.

RUTLAND, June 27.—W. Henry Lester, a well-known farmer, who lives on the Pittsford road north of this city, was probably fatally injured at 11.30 o'clock yesterday morning, when an automobile in which he was riding struck the side of an iron bridge four miles south of Middlebury. His skull was fractured at the top of the head, his left arm and collarbone were broken and his body badly bruised.

The injured man was rushed to the local hospital in the automobile ambulance of A. J. Blackmer of Middlebury, and has not regained consciousness.

The automobile was owned and driven by J. W. Richards of Rutland, son-in-law of Mr. Lester, and in the party were Mrs. Lester and Mrs. Richards. The machine was being driven down the curved approach to the bridge at a rapid rate and struck the first iron girder on the side, snapping it in two, and raking the whole side of the bridge.

Lester was thrown from the rear seat, striking on his head and shoulders. Mrs. Lester, who was also thrown from the car, fainted from the shock but was not seriously hurt. The others received slight bruises.

The right front wheel of the car was taken off and the mudguard, running board and the whole side of the machine crushed in.

CASEMENT SHOWS NO SIGNS OF WORRY

Man on Trial on Charge of High Treason Appears Cheerful While in Courtroom.

London, June 27.—The second day of the trial of Sir Roger Casement for high treason opened with no change in the apathetic attitude of the public. Casement, himself, seems to take the proceedings in the most casual manner. He has the air of being bored except when he chats with the three policemen who sit in the dock with him. He appeared to be in a cheerful frame of mind as he entered the dock. The early testimony was largely the same as given at the preliminary hearing. The police witnesses were examined at length with regard to the general unrest and brought out the fact that the people of the south were arming themselves against the people of the north and against the police. The police witnesses said that while the carrying of arms and drilling went on unhampered by the authorities, the loading of arms would have been a serious matter.
